## Practical and Usable Value Investing Resources

*Value investing resources* will continue to be added to this page.

At the moment, in addition to the articles on this [value investing blog](#), this page will hold a list of articles, pdfs and how to's that fit more into the "general" category of value investing.

## Value Investing Checklist Resources

### > [Investment Checklist for Stock Selection](#)

An investment checklist based on a flow diagram. Also includes a list of items to do at each step of the analysis process.

### > [15 Points to Look for in a common stock](#)

The original checklist by Philip Fisher. This is a list of 15 questions you should ask for qualitative research.

### > [40 Point Stock Selection Investment Checklist](#)

This is an extended stock analysis checklist covering many aspects.

### > [52 Techniques for Finding Fraud](#)

The mother of all checklists. This is an advanced checklist because it requires lots of digging into the financial statements. The central focus is to uncover signs of fraud so any failures is a red warning flag.

## Value Investing Resources (PDF Links)

### > [Old School Value Investing Magazine \(PDF\)](#)

## **Other Value Investing Resources**

> [The Intelligent Investor Audio Book](#)

To be honest, the intelligent investor is not an enjoyable or easy book to read. It is on the list of every [best value investment book](#) list, but seeing as how new investors will find it difficult to understand and finish, download and listen to the audio version instead.
